Titleist Golf Balls

Why we joined US*MADE: The history of the Acushnet Company is tightly woven into the fabric of golf. From the start, we've been committed to enriching the experience of dedicated golfers through superior product performance, technological innovation, unmatched quality, and exceptional service. We have been manufacturing golf balls in the U.S. since the 1930's and believe that is critical to meeting our commitment. We also believe that patents foster innovation and have obtained over 3000 patents to golf equipment. On the other hand, bad patents directed to already existing technology are widely used by unscrupulous patent holders to sue American manufacturers in Federal Court, costing jobs and harming the economy. Acushnet joined US*MADE to ensure that the Patent Office has the ability and responsibility to review bad patents so that they cannot be used to extort American manufacturing companies.
